The truth behind the magic

He's walked on water, passed through glass, and levitated at the side of a bus. Dynamo is one of England's most famous magicians. He's achieved a huge following from his incredible 1._____. But how does he do them?

The river

On 25th June 2011, Dynamo was filmed walking on the River Thames. The stunt was designed to generate publicity for his latest show. Dynamo walked about a hundred metres on the water before he was taken away in a passing police boat.

How did he do it? It's possible he was walking on a concealed, 2._____ platform just beneath the surface of the water. At one point, two canoes seem to hit the platform 3._____. The police boat is believed to be a fake.

The necklace

In Las Vegas in 2011, Dynamo borrowed a necklace from a woman and swallowed it. He then pulled it out from a "hole" in his stomach.

How did he do it? It's been suggested that he had a 4._____ torso. So, instead of actually swallowing the necklace, he simply slipped it underneath the prosthetic stomach and then pulled it out again.

The dive

In 2012, Dynamo walked down the *LA Times* headquarters in Los Angeles, stopping in a horizontal position just above the 5._____.

How did he do it? The trick happened at night, where it would have been harder to spot a wire or harness. There were floodlights on the ground which shone onto Dynamo but which created shadows behind him where a climbing rope or support harness could easily have been hidden.

The glass window

Also in 2012, at a party on the ground floor of a shop in London Dynamo gave his jacket to a pair of bouncers who held it in front of him to create a shoulder-high screen. He then 6._____ behind the screen before reemerging on the other side of the shop window as if he'd walked straight through the glass.

How did he do it? It's most likely that the solid window had a secret hatch at the bottom which Dynamo could have opened while he was covered. He probably 7._____ through this before the coat-screen was removed.

The bus

On 23rd June 2013, Dynamo could be seen levitating at the side of a double-decker bus as part of a 8._____ for Pepsi Max. It appeared that he was just resting his arm on top of a double-decker bus and floating as it drove around London.

How did he do it?

Throughout the stunt Dynamo's right arm – the one touching the bus - remains at a perfect right 9._____ to his body. Some have speculated that his real right arm is tucked beneath his clothes, while a prosthetic 10._____ is bolted to the bus. This fake arm also conceals a metal rod which holds him up.
